Non ultimo una grande passione per il nostro lavoro ed attenzione particolare alle risorse umane ci completano il profilo.

ENGLISH

Since 1949 ERREBI has produced key blanks for locks at its factory in CIBIANA DI CADORE (BL). With a long tradition in key blank manufacturing dating from the XVII century, ERREBI has used its knowledge to develop over time, using market opportunities to become one of the leading companies in its sector. *	<p>“La maggior parte dei nuovi veicoli necessita di una preconfigurazione dei transponder disponibili sul mercato prima di essere programmata nei veicoli, utilizzando diversi strumenti come Scanner via OBdII, computer portatili, ecc ...” Questi pre-codici, ad esempio dal gruppo VW, significa che i 7 byte devono essere estratti dal CS (componente di sicurezza), diversi per ciascun veicolo e chiave, estraendo questo valore dall'unità Immobilizer o dalla centralina (ECU) e programmare quei valori sul chip.</p> <p>“Most new vehicles require pre-configuration of the transponders available on the market before they are programmed in the vehicles themselves. Various tools can be used to do this, such as a Scanner via OBdII, laptop, etc.” Using the VW group as an example, these pre-codes mean that 7 bytes from the CS (Component Security) must be extracted. This is different for each vehicle and key, and the value is extracted from either the Immobiliser or from the ECU (Engine Control Unit). The value must then be programmed onto the chip.</p> <p>« La plupart des nouveaux véhicules ont besoin d'une préconfiguration des transpondeurs disponibles sur le marché avant d'être programmés dans les véhicules, en utilisant pour cela différents outils comme le Scanner via OBdII, les portables, etc. » Ces précodes, en parlant par exemple du groupe VW, cela signifie que 7 bytes du CS (Component security) doivent être extraits, différent pour chaque véhicule et chaque clé, en extrayant cette valeur ou bien depuis l'Immobilisateur ou bien depuis l'unité de contrôle (ECU), et programmer ces valeurs sur la puce.</p> <p>Bei den meisten neuen Fahrzeugen müssen die auf dem Markt verfügbaren Transponder vorprogrammiert werden, bevor sie mit verschiedenen Tools wie zum Beispiel Scanner über OBdII, Laptops usw. in die Fahrzeuge programmiert werden können.” Im Fall von Fahrzeugen der VW-Gruppe heißt das beispielsweise, dass man mit diesen Pre-Codes 7 Bytes aus der CS (Component Security), die für jedes Fahrzeug und für jeden Schlüssel unterschiedlich ist, herausziehen muss; dieser Wert kann entweder aus der Wegfahrsperre oder aus der Steuereinheit (ECU) gezogen werden und wird dann in den Chip programmiert.</p>
**	<p>Per configurare l'intestazione appropriata sul transponder T05 in modo che possano funzionare come T01 / Megamos® Fixed / T02 con la maschera indicata sul PC Software</p> <p>Pre-configure the right header in the T05 transponder so they can operate as T01 / Megamos® Fixed / T02 with the mask indicated in the PC software.</p> <p>Préconfigurer la tête adéquate dans le transpondeur T05 pour qu'il puisse fonctionner comme T01 / Megamos® Fixed / T02 avec le masque indiqué dans le PC Software.</p> <p>Dann muss der entsprechende digitale Empfänger in den Transponder T05 vorkonfiguriert werden, damit dieser als T01 / Megamos® Fixed / T02 zusammen mit der Maske, die in der PC-Software angegeben ist, funktionieren kann.</p>
